

# Uniface web community survey

## Uniface web community survey

Dear all,

My name is Melissa Wijngaarden and I am currently writing my thesis for Uniface regarding the web activities. A survey has been created in order to find out about your opinion regarding the web community and what improvements can be made. The survey should only take up 5 minutes of your time. Your responses will be kept completely confidential and anonymous. Please understand that the results will strictly be used for educational purposes and for the company to adjust or improve its services.

I really appreciate your input!
