

Uniface Anywhere 5.x end of support

Uniface Anywhere 5.x end of support

With the availability of Uniface Anywhere version 6, support for any version prior to 5.0.2 has ended!

On the 5.0.2 version, we will maintain support for security updates for one year after the availability of version 6.

Uniface Anywhere version 6 released on November 2019, the support for ALL versions 5 will therefor stop November 2020.

Starting November 2020, we will no longer be taking any support calls for version 5.

Customers are advised to move to the New [Uniface Anywhere version 6](#) release **as soon as possible**, to ensure continuity of support, which is specifically important for Uniface Anywhere because of the need for MS Security updates.

Dated: November 2019

Updated: July 2020
