

# Uniface 9: Accessing physical and logical files in AS/400

## Accessing physical and logical files in AS/400

Author: [parcaya@compuamerica.com.ve](mailto:parcaya@compuamerica.com.ve) (parcaya)

We need to read and write information from a Uniface system running on Windows to AS/400 using the standard files (physical and logical files) not DB2 /400. Somebody knows if there is a driver or connector like in SqlServer, Oracle. IBM delivers an ODBC to connect from AS/400 to Access or SqlServer. It is possible to use it?

Thanks
