## Uniface Technical Support e-mail problems

Author: daniel.iseli@uniface.com (diseli)

For the past two days, we are having problems with the technical.support.uniface@uniface.com mail address. If you have sent mail to this address and did not receive a reply yet, then please send it again to uniface.support@compuware.com. This mail will automatically create a case in our call tracking system. We will pick up these cases and handle them as soon as we can. The technical.support.uniface@uniface.com mail address is expected to be fully functional again soon.
