

Migrating to Uniface 9: Migration from 8.4.04 to 9.4

Migration from 8.4.04 to 9.4

Author: umesh.lumpatki@gmail.com (umesh.lumpatki)

Hi All,

Currently I'm using Uniface version 8.4.04 and would like to move on to the version 9.4. I have few questions those are as follows:

- 1) The latest Uniface release version is 9.3.01, but is it possible to migrate from 8.4.04 to 9.4 Beta version?
- 2) If yes, is there any migration guide available for Uniface version 9.4? (I haven't found on Compuware site).
- 3) If anyone has already been involved in the migration process from 8.4 to 9.4 or 9.3 then please share your experience with us.

Thanks & regards

Umesh
