

Uniface Development: CompuGroup Medical Profiling Analyser.

CompuGroup Medical Profiling Analyser.

Author: i.sharp@pcisystems.co.uk (Iain Sharp)

Thanks for posting this, it's MUCH faster than the similar idea I wrote in Uniface itself. I think I've got most of it (although I speak no German, Google translate helps), but am unsure how the frequent trigger tab is configured, and don't know the formats of the "Slow Methods" or "Filters" options. Any chance of a manual? Iain
