

Uniface.info site specific: what's new page and forum

what's new page and forum

Author: ulrichmerkel@web.de (ulrich-merkel)

looks like something is completely wrong on the what's new in the forum section: no new entry/comment indicator but it looks like each posting is listed, not the topic. Think this will be a nose-dive in usability and it would be better to return to state before this changes.
