171029: issues index not updated

Author: ulrichmerkel@web.de (ulrich-merkel)

It looks like the issues index isn't updated, but still has a maximum of 31690 as it was the week before. Symptom: looking for "DSP", the latest issue is not in the hitlist: **BUG:** 31692 - Trigger of field in inner entity on DSP might not be fired
