surprise on downloading up-to-date 9.4 CHM

Author: ulrichmerkel@web.de (ulrich-merkel)

Just tried to download a 9.4 CHM from frontline.

Surprise, the CHM title reads:

Uniface Library 9.5.01 R119, Build Date: 2011-10-24

Puzzled ??

Me2,

Uli

P.S. Think **QA** should have stopped this kind of additional confusion.
