

# Uniface 9: Error deleting an Application Model

## Error deleting an Application Model

Author: gianni.sandigliano@unifacesolutions.com (gianni)

I'm building some test cases and trying to delete a model from a repo hosted from Solid with U9.6.08, including 7 entities + many fields and few relationships, I've got an error. The message frame includes these: I/O function: F, mode: 1, on file/table: UNIFACE.OUCFIELD index: 1 = (439 lines more always identical) I/O function: F, mode: 1, on file/table: UNIFACE.OUCFIELD index: 1 = I/O function: F, mode: 1, on file/table: UNIFACE.OUCKEY index: 1 = (9) lines more always identical) I/O function: F, mode: 1, on file/table: UNIFACE.OUCRELSH index: 1 = I/O function: F, mode: 1, on file/table: UNIFACE.OUCRELSH index: 1 = I/O function: F, mode: 1, on file/table: UNIFACE.OUCTABLE index: 1 = (5) lines more always identical) I/O function: F, mode: 1, on file/table: UNIFACE.OUCTABLE index: 1 = I/O function: F, mode: 1, on file/table: UNIFACE.OUCSCH index: 1 = [20-jan-16 12:55:46] [UUCONC03 - DELE: 1] 2012 - occurrence mismatch. Call stack: \_delete, DELE:1, [delete ] Comp: UUCONC03 \_execute, DO\_PROCESS:200, [erase/e "UCDTYP"] Comp: UUCONC03 \_execute, EXEC:46, [call DO\_PROCESS()] Comp: UUCONC03 \_delete, RUNFORM:4, [activate "%\$LP\_4S\$.EXEC"( ) ] Comp: UUCONC20 \_delete, DELE:9, [call RUNFORM()] Comp: UUCONC20 \_accept, STO\_CMP0:1, [store/e/complete "UCSCH"] Comp: UUCONC20 \_accept, DO\_STO\_0:1, [call STO\_CMP0()] Comp: UUCONC20 \_accept, DO\_SAVE1:9, [call DO\_STO\_0()] Comp: UUCONC20 \_accept, DO\_CLOS:10, [call DO\_SAVE1()] Comp: UUCONC20 \_accept, ACPT:1, [call DO\_CLOS()] Comp: UUCONC20 ... and 4 more preceding calls 2012 - occurrence mismatch in component [UUCONC03], entity [UCDTYP], see message frame for more information. It was the first action done after starting Udevelopment, working as single user and \$ioprint is = 0. What's wrong here? Gianni
