

# Uniface 10 Enterprise Edition: a NORTHWIND data base for U10

## a NORTHWIND data base for U10

Author: ulrichmerkel@web.de (ulrich-merkel)

right now, I am in the process to make the famous NORTHWIND data base available for U10 experiments. As long as we have no U10 metadictionary (I use usually UFORM for my demos), this will give us a common base for experiments and tests. It's a big difference if you just add 4 fields in a workshop or you have a longer list of data to enter (just as in real life). Whoever is interested to join this dITo ("do IT ourself") project, send me an eMail: ulrichmerkel . at. web.de Greetings from Frankfurt/Germany, Uli
