U 9.2.03 on win 7 64 bit - error urouter / libdlm32.dll

Author: mail@gandg.it (TheAleph)

I've installed Uniface 9.2.03 (last O314) as follow: win Xp 32 bit ok win 7 32 bit ok win 7 64 bit can't start UROUTER MS error 1067 can't start idf or runtime due to libdlm32.dll (can't find the file etc...) try to remove and reinstall, with no changes. Can you help me ? Thanks Roberto
